

*Marine Matters Curriculum 1*  
**Lesson 4 Food Chains and Food Webs**  
**Worksheet 1 – Food Chains**

Look at the example of a food chain shown below. The arrow points from the energy source (food) to the plant or animal that is getting the energy.

Use the space below to make up your own marine food chain.

*Marine Matters Curriculum 1*  
**Lesson 4 Food Chains and Food Webs**  
**Worksheet 2 – Food Webs**

1. Draw a circle around the producers, a square around the consumers, and a triangle around the decomposers.

**Producers** use the sun's energy to make their own food.

**Consumers** eat other living things.

**Decomposers** eat dead organisms.

2. Draw an arrow from the energy source (food) to the plant or animal that gets the energy.
